Dear guests, welcome to Hellermanns Hütte.

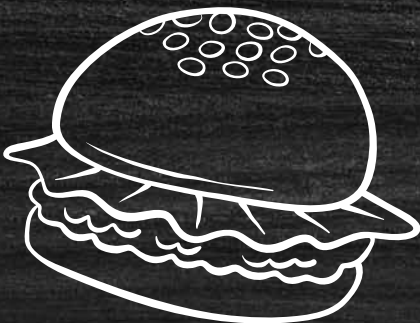

We are happy to have you here!

Here are a few words about ourselves: We try to obtain local products. Our pork comes from the butcher Gierse in Bödefeld and the deer is supplied by local hunters from the region. But you also have the choice to order meatless options. Imagine your favorite meaty dishes delivering the juicy, delicious taste you know and love, while being better for you and the planet. We offer children's portions, too. If you have any questions about ingredients, please do not hesitate to contact our service staff. Special documents are available at the bar for allergic guests. We are looking forward to your feedback, questions and recommendations!

The Hellermann family and team
